

Jenny Streiffer Mascaro  
846 Forest Avenue Apt. 1  
South Bend, IN 46616  
1-888-621-5883  
(moving to College Station on August 8, 2000)

## OBJECTIVE

- To obtain a part-time or full-time position in a veterinary medicine-related field which will give me experience in an animal hospital, in an animal clinic or in research in order to continue my preparation for Veterinary School.

## EDUCATION

- Nine credits short of a B.A. with a double major in Anthropology and Pre-Professional Studies at the University of Notre Dame (will complete degree at Texas A&M in December 2000)
- 3.456 GPA at Notre Dame as a four-year varsity athlete in soccer

## AWARDS/HONORS

- Two-time recipient of Knute Rockne Scholar-Athlete Award ('97, '99)
- Two-time GTE/CoSIDA first-team Academic All-American ('97, '98)
- Big East Conference female Scholar-Athlete of the Year [with \$4000 scholarship] ('99-'00)
- Byron V. Kanaley Award for performance as a student and leader ('99-'00)
- NCAA 2000 Post-Graduate Scholarship of \$5,000 (July, 2000)
- Member of two-time ('96, '99) national championship runner-up soccer team
- Two-time All-American ('96, '99)
- Three years as a member of the under-21 U.S. National Soccer Team
- Four international appearances with the U.S. National Soccer Team
- One of four alternates on the 1996 Gold Medal U.S. Olympic Soccer Team

## EXPERIENCE

- Volunteered over 120 hours at the Potawatomi Zoo. Experience included shadowing veterinarian and vet technician during daily procedures as well as several surgical procedures and necropsies, developing x-rays, helping with animal restraint, cleaning quarantined animals, performing fecals, and entering daily reports and blood work into a computer.
- Accumulated approximately 50 hours of work in the laboratory animal section of the Notre Dame Biology Department. Experience included cleaning lab animal cages; practicing IM, IV, SQ, ID, and IP injections as well as eye bleeds and heart bleeds on mice, rats, guinea pigs, chickens, and fish and observing lab and veterinary procedures.
- Worked for four months at Pet Supplies Plus. Duties included taking care of animals (fish and birds), working cash register, and answering questions.
- Worked for three months in the *Drosophila* lab at Notre Dame as a research assistant to genetics professor David Hyde. Experience included sexing, mating, and mutating fruit flies for research on retinal detachment.

## PERSONAL DATA

- Born May 25, 1978, in Metairie, LA. Married on June 19, 1999, to Nathan Mascaro (Texas A&M graduate student in psychology beginning fall, 2000).
